

P JAGDISH RAO

FULL STACK DEVELOPER REACT | NODE JS | MONGO | MYSQL

Full Stack Developer with 2+ year of professional experience building scalable MERN stack applications. Specialized in React.js, Next.js, Node.js, and REST API development with JWT authentication and Redux state management. Experienced in developing responsive UI, backend services, and performance-optimized applications using modern JavaScript technologies

WORK EXPERIENCE

Piest Systems OPC PVT LTD

Software Engineer

MAY - 2024-
CURRENT

- Developed responsive React/Next.js interfaces improving page load performance and cross-device usability.
- Managed state with Redux Toolkit, ensuring a consistent global store across components for seamless user experience.
- Designed reusable UI components in React and developed modular backend services to support system scalability.
- Constructed RESTful APIs with Express.js linked to MongoDB using Mongoose, facilitating frontend consumption via Axios.
- Implemented JWT-based authentication for secure login, signup, and role-based access with Node.js and MongoDB.
- Secured data transmission with JWT authentication and password hashing using bcrypt, reinforcing application security through rigorous API route validation.
- Applied lazy loading and server-side rendering techniques with Next.js to enhance application performance.
- Coordinated core module development for frontend-backend integration across technology stacks, enhancing system cohesion.

PROJECTS

Pieduet - LMS Web Application

- Built MERN-based LMS supporting course and user management
- Implemented JWT authentication & role-based authorization
- Developed reusable React components using Tailwind CSS
- Managed global state using Redux Toolkit
- Designed REST APIs integrated via Axios

Pievcore – EForum Website

- Developed a MERN stack-based educational forum platform supporting Q&A discussions, idea posting, polls, e-news, job listings, and real-time chat features.
- Designed and implemented database schemas for posts, ideas, polls, chats, and notification systems using MongoDB.
- Built secure authentication and authorization using JWT with protected routes and middleware validation.
- Developed responsive frontend interfaces using React.js, Next.js, and Tailwind CSS for cross-device compatibility.
- Integrated backend REST APIs with Axios and managed application state efficiently using Redux Toolkit.
- Optimized application performance and ensured SEO-friendly rendering using Next.js best practices.
- Implemented reusable UI components and followed scalable coding standards for maintainability.
- Performed API testing and debugging using Postman to ensure reliable data flow and system stability.

Address

Bhubaneswar, Odisha

EDUCATION

• 2019-2022

Biju Patnaik University of Technology

B.Tech, Computer Science

Engineering

• 2016-2018

Govt. Polytechnic Bhubaneswar

Diploma, Information Technology

• 2013-2015

Govt. I.T.I Bhubaneswar

ITI, COE(IT)

• 2012-2013

Ram Krishna Mission Vivekananda

High School

10th

TECHNICAL SKILLS

Frontend:

React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

Backend:

Node.js, Express.js, REST APIs, JWT Authentication

Database:

MongoDB, MySQL

Tools:

Git, GitHub, Postman, Axios, Redux Toolkit
