CAREER OBJECTIVE

A Front-end Web Developer in product development concentrating primarily on HTML, CSS, Tailwind CSS JavaScript, and Typescript working with React Next-JS framework to build an application. I am seeking a position in a company where I can launch my career and gain a valuable skill set.

SKILLS

- HTML
- CSS
- Bootstrap
- Tailwind CSS
- JavaScript
- TypeScript
- React
- Next-JS
- API Handling

PROFESSIONAL EXPERIENCE

Piest Systems OPC .Pvt .Ltd - Software Engineer

PievCore Web Application (Learning Forum Application)

May 2024-Continuing

Bellandur, Bengaluru

- Developed a Forum Educational Embedded Technology Website using Next.js with TypeScript, ensuring a scalable and efficient codebase.
- Designed and implemented the UI/UX with Tailwind CSS, delivering a visually appealing and user-friendly interface to enhance the learning experience.
- Managed API integration by efficiently connecting the front-end with back-end services to ensure smooth data flow and functionality.
- Implemented user authentication processes, ensuring secure access control and enhancing data protection within the platform.
- Utilized Axios for making API requests, handling data fetching, and managing errors to improve application performance and stability.

Pieduet Web Application (A Online LMS Project)

- Developed the front-end using Next.js with TypeScript for robust and scalable architecture, ensuring better type safety and improved code maintainability.
- Designed and implemented the UI/UX with Tailwind CSS, creating responsive, modern, and user-friendly interfaces for seamless navigation and improved user experience.
- Built and integrated Node.js backend APIs to manage core functionalities, ensuring efficient data handling and smooth communication between the front-end and back-end.
- Utilized Postman to thoroughly test and debug APIs, ensuring reliability, performance, and secure data exchange.
- Integrated APIs on the front-end using Axios, handling data fetching, error handling, and enhancing the application's performance with optimized request strategies.
